

CSSconf Nordic

Oslo, Norway — 01 June 2016

A community conference for designers and developers who love CSS.
The day before and at the same venue as the 5th Web Rebels.
We expect our audience for CSSconf to be at 150–200.

Part of the international CSSconf family

Since the prototype, CSSconf US, was started by Nicole Sullivan in 2013, the CSSconf family has expanded around the globe. All CSSconf organizer teams share the vision of an international, diverse and creative CSS community, for which the CSSconf series offers a platform to meet, hack, share knowledge and build friendships.

Sponsorship packages

We have three different packages and hope one of them sounds just right for you.
